Plans of the proposed work may be seen at the CRMC office in Wakefield.

In accordance with the Administrative Procedures Act (Chapter 42-35 of the Rhode Island General Laws) you may request a hearing on this matter.

You are advised that if you have good reason to enter protests against the proposed work it is your privilege to do so. It is expected that objectors will review the application and plans thoroughly, visit site of proposed work if necessary, to familiarize themselves with the conditions and cite what law or laws, if any, would in their opinion be violated by the work proposed.

If you desire to protest, you must attend the scheduled hearing and give sworn testimony. A notice of the time and place of such hearing will be furnished you as soon as possible after receipt of your request for hearing. If you desire to request a hearing, to receive consideration, it should be in writing (with your correct mailing address, e-mail address and valid contact number) and be received at this office on or before November 20, 2016.

/lat
12. Procedure for maintaining records: Records of sea otter size, gender, and seasonal data will be kept in a waterproof notebook for easy access.

11. Practices and Procedures Used: The proposed bottom plant site will be specifically used for both growth and storage in a year round basis.

10. DEM Shellfish Harveting Classification: NOW

9. Methods and equipment used to identify and mark the site: The designated aquaculture area boundaries will be marked with four planning/monitoring equipment and oystlers to aid in the site's accurate access. The public access beach and parking areas at the Quonochontaug West Beach Breedingway will be used to move

8. Types of Structions: Gear and Methoeds: We would like to grow oysters using a direct bottom plant method on one (1)
