SHORELINE CHANGE 1952-2016

Bryan A. Oakley, Robert J. Hollis, Alexia N. Bohnenkamper
Scott A. Rasmussen and Jon C. Boothroyd

With contributions from Michael A. Manzi, Samantha L. Boyle and Joshua Bartosiewicz

DIGITAL SHORELINE ANALYSIS	EXPLANATION	SHORELINE	SHORELINE CHANGE
	West Bay Lines	West Bay Lines	0.00

Legend		Wet/Dry Lines		Transect ID	
	DSAS Transect		1952		Shoreline Change Distance
	Baseline		2016		Shoreline Change Distance

EXPLANATION
1. The first step in the process is to identify the problem. This involves gathering information about the situation and understanding the needs of the stakeholders involved. 2. Once the problem is identified, the next step is to develop a plan. This involves setting goals, identifying resources, and determining the steps that need to be taken to solve the problem. 3. The third step is to implement the plan. This involves putting the plan into action and monitoring progress to ensure that the goals are being met. 4. Finally, the fourth step is to evaluate the results. This involves assessing the effectiveness of the plan and making adjustments as needed to improve the outcome.

DIGITAL SHORELINE ANALYSIS		SHORELINE		SHORELINE CHANGE	
1	DSAS Transect	Wet/Dry Lines		Transect ID	28
2	Baseline	 1952	Shoreline Change Distance	-42.1 ft	
		 2016	Shoreline Change	-12.85 m	

DIGITAL SHORELINE	SHORELINE	SHORELINE CHANGE
-------------------	-----------	------------------

ANALYSIS		Wet/Dry Lines		Transect ID	
	DSAS Transect		1952	Shoreline Change Distance	20 -42.1 ft -12.85 m
	Baseline		2016	Shoreline Change Rate	-0.7 ft/yr -0.20 m/yr
