The proposed amendments will delete currently required filing fees for declaratory rulings and petitions for regulation change. In addition, the proposed amendments will add specificity to required filings in cases where expert and lay testimony will be presented and increase the timing of their filing with the Council prior to a hearing to allow the Council, Council staff and parties sufficient time to review any new any new evidence, reports, or data on which testimony will be based.

The proposed regulations do not impose any new requirements on regulated entities including any small businesses or any city or town; therefore, there is no adverse economic impact. In consideration of the alternatives the CRMC has determined that there is no alternative approach among the alternatives considered that would be as effective and less burdensome to affected private persons as another regulation based on available information. In addition, there are no other state regulations which are overlapped or duplicated by the proposed regulation.

The CRMC has determined that the benefits of the proposed rule justify the costs of the proposed rule, and that the proposed rule will achieve the objectives of the authorizing statute in a more cost-effective manner and with greater net benefits than other regulatory alternatives.
