**NOTICE OF PUBLIC HEARING**

(\*Amended October 19, 2022)

**CRMC File No.:** 2021-07-005 **Date:** October 18, 2022

In accordance with and pursuant to the provisions of the "Administrative Procedures Act", (Chapter 42-35 et. seq. of the General Laws of Rhode Island), and the Rules and Regulations of the Coastal Resources Management Council, a hearing will be held on the petition of:

**Revolution Wind, LLC**  
**Attn: Mark Roll, Permit Manager**  
**56 Exchange Terrace; Suite 300**  
**Providence, RI 02903**

relative to Title 46, Chapter 23, of Section 6 A, B, C, D, E, Title 46 Chapter 23 Section 18(b), Title 46, Chapter 6, Section 1, Title 46, Chapter 6, Section 2 of the Rhode Island General Laws of 1956, as amended, for a State of Rhode Island Assent for:

Two submarine export transmission cables (275 kilovolt high voltage alternating current (AC)) have been proposed for the project. Each cable measures approximately 23 miles in length and has been proposed to be installed in CRMC Type 4 and 6 Waters in Rhode Island Sound and the West Passage of Narragansett Bay, making landfall at the Quonset Business Park, North Kingstown. The export cable will cross an Area of Particular Concern as identified by Ocean Special Area Management Plan § 11.10.2 and will require a Special Exception under Coastal Resources Management Program Section 1.1.8.

The cables will be installed at a target burial depth of 4-6 feet below the seabed, which will create a total estimated disturbance of approximately 730 acres within state waters. Secondary cable protection in the form of rock bags, concrete mattresses, and/or rock berms may be used where the target burial depth cannot be achieved.

The export cables will make landfall at the Quonset Business Park, the heavily Industrial waterfront via horizontal directional drilling, which will require the construction of two offshore exit pits.

\*After joining with the export cables, the Onshore Transmission Cable will follow Circuit Drive northwest to 135 Circuit Drive, where it will cross this property north of the existing driveway and cross the property in a north-northwest direction until reaching the property owned by Quonset Development Corporation. Here the cable will continue north until reaching 101 Circuit Drive. The cable will then continue north across 101 Circuit Drive and 75 Circuit Drive within the existing paved access road to the existing Davisville Substation. At the Davisville Substation, the cable continues west, parallel to the northern property boundary before reaching The Narragansett Electric Company's parcel. After crossing, the cable enters the Onshore Substation tying into the proposed access road. The total cable length is approximately one mile.\*

**The application will be heard over the course of two hearings - both hearings to begin at 6:00 p.m. in Conference Room A of the Administration Building, One Capitol Hill, Providence, RI on:**

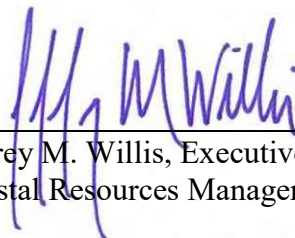

- **Tuesday, November 1, 2022**
- **Tuesday, November 22, 2022**

Parties interested in/or concerned with the above mentioned matter are invited to be present and/or represented by counsel at the above mentioned time and place. This meeting place is accessible to individuals with disabilities. The meeting location is accessible to handicapped persons. Any individual requiring a reasonable accommodation in order to participate in this meeting should contact CRMC offices at 401-783-3370 at least 72 hours prior to the meeting.

Plans of the proposed work may be seen in the office of the Coastal Resources Management Council, Oliver H. Stedman Government Center, 4808 Tower Hill Road, Wakefield, Rhode Island, between the hours of 8:30 a.m. and 3:30 p.m., Monday through Friday.

Oral statements will be heard and recorded and statements may be submitted to the hearing officers at the time of hearing.

Signed this 18th day of October, 2022.
