Thank you for the CRMC's correspondence. Please feel free to proceed with your hearing. If you would truly like me to be present to offer my lawful & constitutional rights to my private property please feel free to issue a continuance sometime in March or April or whenever you wish.

respectfully,
Noah Gabriel

I received 3 more emails yesterday & today from Laura Miguel & Devon Robinson. On Valentines Day. I asked politely in my previous emails to the Council that because of their unethical, deceptive, rude & uneducated behavior towards me & my constitutional rights to my private property, I wished for no further contact with them. It has caused me & my relatives months of undeserved ill- health & grave emotional stress. I can only view this continued correspondence by them as purposeful harassment.

Under federal law, I am quite aware that I, Noah Gabriel, am the only person with any rights to my property at this moment. If the government & town of Narragansett wants to try & turn my property into a wetland by continuously flooding my property as the town of Narragansett has been doing for many years then that constitutes a "Government Taking" in which I must be fully compensated for the value of my buildable lot with a legally binding co-agreement.

Furthermore, I will not be present for any hearing that does not fall under the astute federal laws of our constitution in regards to private property rights & rights to a shelter. I repeat, the state at this moment has no rights to my buildable private property nor my warranty deed.

If the CRMC & State of RI continues to try an thwart my efforts to redirect the constant downhill floodwaters coming from the town of Narragansett's properties or in any way tries to delay my rights to clearing & building a home with my constitutional rights to a shelter, without constituting a Hovernment Taking agreement, I will gladly file the forementioned appropriate civil law suit in immediate fashion against town & state as I continue to prepare & beautify my private property for the home I lawfully have the right to begin building this Spring.

Federal law allows the CRMC one chance to resolve this downhill flooding issue & the rights to my private property issue before I am legally allowed to facilitate litigation against the state, town and/or agency.

In closing I must add that Federal law is put in place to discourage corruption between state legislatures, agencies & peoples.

I hope you go by the letter of the law on the 28th & you're all guided by your better angels on that evening. I wish only to hear of any lawfully binding decisions made by the Council from the Council following the meeting.

I can also be reached by at my property on Daytona Ave periodically for any personal meetings that may be helpful.

respectfully,

Noah Gabriel

PS I have 24 trees on my property. I am a nature lover. It's the reason why I purchased the property. I plan to keep the back of my property a beautifully manicured enchanted, indigenous forest. I respect the importance of nature as much as I respect human rights. In all due respect please take a walk on the property, a 3rd grader can easily see that it's only water run-off.
