Hello Lisa and Jenn,

Our determination for project 2022-12-092 is the same as it was for 2022-04-111 (letter attached). Please let me know if the previous letter and this email are sufficient for your records.

Have a great weekend!

Elizabeth

Re: CRMC File Number 2022-04-111
Applicant: City of Newport
Stone Pier at King Park
Wellington Avenue
Newport, Rhode Island

Dear Mr. Coia:

The Rhode Island Historical Preservation and Heritage Commission (RIHPHC) staff has reviewed additional information provided by the applicant for the above-referenced application. The City of Newport proposes to install a new floating dock off the Stone Pier at King Park in Newport.

The pier is located within the Ocean Drive National Historic Landmark District, which is listed in the National Register of Historic Places and a National Historic Landmark. The City proposes to install a new floating dock with a ramp and concrete pad that will attach to the east side of the Stone Pier through eight bolt holes. This option will cause the least damage to historic fabric and will have the least visual impact to the surrounding historic district. Based upon our review of available information, it is the RIHPHC's conclusion that the project will have no adverse effect on historic properties.

These comments are provided in accordance with 650-RICR-20-00-1.2.3 *Areas of Historic and Archaeological Significance* of the Coastal Resources Management Council. If you have any questions, please contact Elizabeth Totten, Project Review Coordinator, or Charlotte Taylor, Staff Archaeologist of this office.

Sincerely,

FOR

Jeffrey Emidy
Interim Executive Director/Interim State Historic Preservation Officer
