

Walk at Napatree

Instructor: Bryan Oakley, Eastern Connecticut State University

Date: October 7, 2014, from 1-4 p.m.

Location: Napatree Point Conservation Area, Watch Hill, Westerly (Gate adjacent to Misquamicut Club Beach Club, Fort Road, Watch Hill)

Join us on an exploration of beautiful Napatree's geology. Since the Hurricane of 1938 removed the original development, the barrier has been allowed to evolve naturally, migrating as storms and natural processes create a constantly-changing landscape. Wear clothing and shoes appropriate for beach and sun. Sunscreen is advisable. Restrooms can be found at the Watch Hill Bathing Beach, on Bay Street, adjacent to the merry-go-round.

Limited space available; RSVP to Tracy Kennedy at tkennedy@mail.uri.edu or 401-874-6805.
