

**Designation of
Public Rights-of-Way
to The Tidal Areas of The State**

PROGRESS REPORT FOR

July 2017 through June 2018

Submitted by

**THE COASTAL RESOURCES MANAGEMENT COUNCIL
Subcommittee on Rights-of-Ways**

As Amended JUNE 2018

**CRMC Progress Report on Public Rights-of-Way Designations
July 2017 through June 2018**

SUMMARY

During the report period of July 2017 through June 2018 and in accordance with its legislative mandate at RIGL 46-23-17, the Coastal Resources Management Council (CRMC) has continued to address the discovery and designation of public rights-of-ways to the tidal areas of the state.

The General Assembly has mandated the CRMC with the continuing task of discovering and designating public rights-of-ways to the shore. In response CRMC established the Rights-of-Way (ROW) Subcommittee in 1978.

Any decision resulting in a public right-of-way designation by the Council is permanently recorded with the Secretary of State. The cumulative efforts of the CRMC and its ROW subcommittee are as follows. Please note that the potential ROWs listed in this report are compiled in an appendix. They are subject to legal review by CRMC counsel should new information be discovered that might change their current status. Any changes in the status of these potential ROWs will be reflected in subsequent CRMC annual ROW reports.

Total Number of Potential ROWs Reviewed:	356
Sites Designated as Public ROWs:	226
Sites with Insufficient Evidence for Designation:	71
Sites that are Not Resolved:	34
Sites Under Review:	25
*Sites that are On Appeal:	0

**Sites that are on Appeal are not included in the Total Number of Potential ROWs Reviewed*

GOAL

The goal of the CRMC is to designate at least one (1) public right-of-way for each mile of shoreline. With 226 sites designated as public, and with 420 miles of Rhode Island shoreline, the CRMC is better than half-way to reaching its goal.

ACTIVITIES OF THE CRMC

Significant previous accomplishments and new activities conducted during this report period by the CRMC staff and ROW Subcommittee follow:

- 1) One (1) ROW Subcommittee meeting was held during the report period, July 1, 2017-June 30, 2018.
- 2) The CRMC is in the process of reviewing extensive research on five potential ROWs located in the Buttonwoods Fire District in the City of Warwick; this research was conducted and submitted by Mr. Richard Langseth, a fire district resident. Mr. Langseth contends that Andrew Comstock Road,

Buttonwoods Avenue, Promenade Avenue, Claflin Road, and Lorna Avenue have been accepted by the City of Warwick and lead to the shore, making them candidates for designation by the CRMC.

- 3) CRMC policy staff and legal counsel concurred that evidence presented by the Warren Harbor Commission supported the designation of the following potential ROWs: 1) Bridge Street; 2) Beach Street; 3) Baker Street; and, 4) Riverview Drive). As such, all four were recommended to the ROW Subcommittee which held a public hearing and subsequent public workshop in the Town of Warren to receive public comment on these potential ROWs. The ROW Subcommittee then recommended all four to the full Council for consideration, and each one was designated as ROW by a vote of the Council.
- 4) The CRMC intervened in the obstruction of the public's use of the CRMC designated ROW Y-9 by the Atlantic Beach Club, a private business located adjacent to the ROW in the Town of Middletown. Atlantic Beach Club employees had been routinely informing individuals using the ROW that they were trespassing on the club's property, and ordering them to leave the beach. When informed of this, the CRMC coordinated with the Town of Middletown to ensure that the club would cease and desist in its unlawful practice of denying the public its right to access the shore at the CRMC ROW. CRMC legal counsel has subsequently reported that the club is no longer engaging in this practice.
- 5) The CRMC denied a permit application that proposed to "improve" a parcel on which CRMC ROW T-3 occurred in the Town of Tiverton. The applicant claimed the purpose of the proposed activity was to improve the parcel by constructing rain gardens and other landscaping, but when it became apparent that these activities would result in the de facto extinction of the ROW, CRMC permit staff and legal counsel intervened and the permit application was denied.
- 6) Though the following activity did not occur during the report period, it is included in order to provide a link to the digital version of the guide book "*Public Access to the Rhode Island Coast*". CRMC staff coordinated with Rhode Island Sea Grant on the development of an app to update and replace the hard copy publication *Public Access to the Rhode Island Coast*; the CRMC funded this app and its hard copy predecessors, the 1993 first edition and the 2004 second edition, both of which describe hundreds of shoreline public access sites including CRMC designated ROWs. Please be aware that the digital version is static and will not be updated in the future. As such it does not list all CRMC ROWs as several new ones have been designated since the second edition of the public access guide was published in 2004. Up to date information on all CRMC ROWs is found within this annual ROW report. At the time of this writing some hard copies of the guide are still available at cost at the CRMC office in Wakefield. Digital copies of the public access guide are also available via the following link to the CRMC website: http://www.crmc.ri.gov/publicaccess/ri_access_guide.pdf.
- 7) Though the following activity did not occur during the report period, it is included due to its significance regarding public access to the shore at Misquamicut Beach in the Town of Westerly. In the RI Supreme Court case "Peter F. Kilmartin, Attorney General of the State of Rhode Island v. Joan M. Barbuto, et al." [Supreme Court No. 2015-195-Appeal. (WC 12-579)], the court upheld the RI Superior Court's denying the Attorney General's request for declaratory judgment that a 1909 Plat created an incipient dedication of an easement to a disputed part of the beach at Misquamicut. In the RI Superior Court case of Kilmartin v. Barbuto the RI Attorney General Peter F. Kilmartin brought suit against certain homeowners at Misquamicut Beach in the Town of Westerly. At issue was an approximately two-mile long stretch of land bordering the shore of the Atlantic Ocean and extending landward from the sea (Disputed Area). The Attorney General claimed the original owners of the Disputed Area recorded a subdivision (1909 Plat) by which they offered an easement across the Disputed Area to the general public. The Attorney General sought declaratory judgment from the Court to forbid the present

homeowners from interfering with the public's right to use the Disputed Area as a public easement to the shore. The Court's task was to determine whether the 1909 Plat effectively offered the Disputed Area to the public through dedication as an easement. The Court denied the Attorney General's request for declaratory judgment, concluding that the 1909 Plat did not create an incipient dedication of an easement across the Disputed Area to the shore. At the time of this writing the Attorney General's office had announced that it will appeal the Court's judgment. (Adapted in part from RI Superior Court case C.A.No. WB-12-0579, filed 9/4/14). That appeal occurred on June 15, 2016 when the Attorney General filed a brief appealing the judgment by the Superior Court to the Rhode Island Supreme Court (C.A. NO.: SU-15-0195; Appeal of C.A. NO.: WC 12-0579).

- 8) The CRMC provided shoreline public access signage and accompanying letter of permission to City of Warwick regarding the installation of the signage at CRMC ROW J-13 at Waterfront Drive.
- 9) The CRMC conducted a site visit to CRMC ROWS A-8 and A-10 with the Town of Westerly Conservation Commission chair regarding the town's plan to improve these ROWs by removing vegetation that made these ROWs impassable. CRMC permit staff determined that ROW A-8 was not a candidate for such improvement as it contained extensive protected wetlands habitat. ROW A-10 was found to be absent wetlands habitat and the agency awaits a permit application from the Town of Westerly regarding its plans to clear the ROW of vegetation that currently obstructs the public's use of this pathway to the shore.
- 10) The CRMC continues to partner with Save The Bay to update the CRMC's ArcGIS Online ROW map. CRMC staff photographed every ROWs as part of this project and they are available to STB as they contribute toward updating the map. The ArcGIS Online ROW map can be accessed via the following link: <http://www.crmc.ri.gov/maps.html>
- 11) The CRMC created two public access opportunities in the Town of Narragansett via the permitting process. In one case a shoreline walking path and boardwalk were established under a Nature Conservancy permit application (file # 2012-08-005), and in the other a pedestrian easement providing lateral shoreline access near Pt. Judith was created in the (file# 2013-11-096).
- 12) The CRMC continues its cooperative program with the municipalities to accelerate the discovery process of potential rights-of-way to the shore through the Harbor Management Planning process. The proposed ROWs mentioned above in the Towns of North Kingstown, Portsmouth, and Warren were all identified via this process.
- 13) The CRMC created further public shoreline access opportunities when it developed and approved the Aquidneck Island SAMP. A stated purpose of the SAMP is that through its implementation, the CRMC will apply, where appropriate, the US Environmental Protection Agency and National Oceanic and Atmospheric Administration's adopted Waterfront and Coastal Smart Growth Elements, which among other goals includes the creation of walkable waterfronts and shoreline communities with visual and physical access to and along the waterfront for public use. Similar to the Metro Bay SAMP, the Aquidneck Island SAMP creates shoreline public access through regulatory processes. As such, the Aquidneck Island SAMP provides permit applicants the option to create shoreline public access that is, a "coastal greenway" on their property and avoid the more restrictive setback and buffer requirements as respectively specified in Sections 1.1.9 "Setbacks" (formerly § 140) and 1.1.11 "Coastal Buffer Zones" (formerly § 150) of the RICRMP. To date, the first Coastal Greenway via the Aquidneck Island SAMP has been established in the Town of Portsmouth through a permit to Northern Waterfront Associates to establish a resort community. The public shoreline access amenities provided by the

coastal greenway include a walking path to the shore, public parking, and a storage rack for small vessels such as kayaks.

- 14) The CRMC has created numerous public access opportunities via assent stipulations under section 1.3.6 “Protection and enhancement of public access to the shore” (formerly § 335) of the RI Coastal Resources Management Program regulations. Section 1.3.6 stipulates that a public access plan must be prepared when the following activities are proposed: 1) Commercial and industrial development and redevelopment projects as defined in section 1.3.1 (C) “Residential, commercial, industrial, and recreational structures” (formerly § 300.3); 2) New and significant expansions to marinas as defined in section 1.3.1 (D) “Recreational Boating Facilities” (formerly § 300.4); and, 3) Activities which involve the filling of tidal waters as defined in section 1.3.1 (J) “Filling in tidal waters” (formerly § 300.10), other than those considered as maintenance as defined in section 1.3.1 (G) “Construction of shoreline protection facilities” (formerly § 300.7). The following cumulative list (as shown in the table on page 5) includes various types of public access created under section 1.3.6Section 335” such as boardwalks, parking facilities, shoreline access paths, and others:

Project with Section 1.3.6 Stipulated Public Access Plan	City/Town
Stone Harbour Condominiums	Bristol
Thames Street Landing	Bristol
Weetamoe Farms	Bristol
Wharf Tavern	Bristol
Town of East Greenwich	East Greenwich
Sakonnet Point Club	Little Compton
Knowlesway Extension (at Pt. Judith Pond)	Narragansett
Casey’s Marina	Newport
Newport Onshore	Newport
The Inn at Long Wharf (Marina)	Newport
West Wind Marina (Waite’s Wharf)	Newport
Blue Beach (Economic Development Corporation)	North Kingstown
Compass Rose Beach (Economic Development Corporation)	North Kingstown
Jamestown Bridge (RI Department of Transportation)	North Kingstown
Keiffer Park (Economic Development Corporation)	North Kingstown
North Kingstown Town Marina	North Kingstown
Quonset Development Corporation	North Kingstown
Spink’s Neck Beach (Economic Development Corporation)	North Kingstown
Wickford Shipyard	North Kingstown
Carnegie Abbey	Portsmouth
Melville Marina	Portsmouth
Mt. Hope Marine Terminal	Portsmouth
Carnegie Abbey/Willow Lane (additional public access parking area)	Portsmouth

Collier Point Park (Narragansett Electric)	Providence
Providence Place Mall	Providence
Shooters (Currently RIDEM property)	Providence
Matunuck Beach Trailer Association	South Kingstown
Village at Mt. Hope Bay (Starwood)	Tiverton
Sakonnet River Bridge (RIDOT)	Tiverton
City of Warwick	Warwick
Dickerson's Marina	Warwick
Greenwich Bay Marina	Warwick
Harbor Light Marina	Warwick

- 15) The CRMC has established an Adopt-An-Access Program by which public/private partnerships preserve, protect, and enhance public access at CRMC ROWs. The Program is implemented via MOUs that stipulate each partner's role and responsibilities. The CRMC is a committed partner with Clean Ocean Access which adopted six ROWs in the Town of Middletown during the report period 2017-18. Whether officially adopted or not COA monitors every ROW on Aquidneck Island and hopes to adopt the ROW at Marine Avenue (Z-24) in Newport which was designated after every other ROW in the City had been adopted by COA. There are 42 adopted ROWs in the state as shown in the table below:

(See table on following page)

CRMC Progress Report on Right-of-Ways to the Tidal Areas of the State

CRMC ROW (Designation #)	Municipality	Adopting Entity
“Daunis”/Nyatt Road (P-2)	Barrington	RI Saltwater Anglers Assoc.
Gibson Road (S-2)	Bristol	B. Highlands Improv. Assoc.
Constitution Street (S-4)	Bristol	Save Bristol Harbor
Union Street (S-5)	Bristol	Save Bristol Harbor
Walley Street (S-6)	Bristol	Save Bristol Harbor
Poppasquash Road (S-19)	Bristol	Save Bristol Harbor
Oliver Street (S-22)	Bristol	Save Bristol Harbor
Tuckerman Avenue (Y-1)	Middletown	COA and the Milnes Family
Shore Drive (Y-3)	Middletown	Clean Ocean Access (COA)
S.E. end esplanade & Shore Dr. (Y-5)	Middletown	Clean Ocean Access
Taggerts Ferry Road (Y-6)	Middletown	Clean Ocean Access
Kingfisher Avenue (Y-7)	Middletown	Clean Ocean Access
Western end of Purgatory Road (Y-9)	Middletown	Clean Ocean Access
Shore Drive, opposite Lot 107 (Y-10)	Middletown	Clean Ocean Access
Tuckerman Avenue (Y-11)	Middletown	RI Saltwater Anglers Assoc.
Bass Rock Road (C-6)	Narragansett	Coastal Society URI Chapter
Conant Avenue (C-7)	Narragansett	Narragansett Surfcasters
Knowlesway Extension (C-1)	Narragansett	Narragansett Con. Comm.
Webster Avenue (Z-1)	Newport	Clean Ocean Access
Narragansett Avenue (Z-2)	Newport	Clean Ocean Access
Ledge Road (Z-3)	Newport	Clean Ocean Access
Ruggles Avenue (Z-4)	Newport	Clean Ocean Access
Seaview Avenue (Z-5)	Newport	Clean Ocean Access
Cypress Street (Z-6)	Newport	Clean Ocean Access
Van Zandt Street (Z-7)	Newport	Clean Ocean Access
Battery Street (Z-8)	Newport	Clean Ocean Access
Pine Street (Z-9)	Newport	Clean Ocean Access
Cherry Street (Z-10)	Newport	Clean Ocean Access
Chestnut Street (Z-11)	Newport	Clean Ocean Access
Walnut Street (Z-12)	Newport	Clean Ocean Access
Willow Street (Z-13)	Newport	Clean Ocean Access
Poplar Street (Z-14)	Newport	Clean Ocean Access
Elm Street (Z-15)	Newport	Clean Ocean Access
Goat Island Connector 28-B (Z-16)	Newport	Clean Ocean Access
Goat Island Connector 28-A (Z-17)	Newport	Clean Ocean Access
Brown & Howard Wharf (Z-18)	Newport	Clean Ocean Access
Lee’s Wharf (Z-19)	Newport	Clean Ocean Access
Howard’s Wharf (Z-20)	Newport	Clean Ocean Access
Sisson’s Wharf (Z-21)	Newport	Clean Ocean Access
Waites Wharf (Z-22)	Newport	Clean Ocean Access
Spring Wharf (Z-23)	Newport	Clean Ocean Access
Ruth Avenue (V-11)	Portsmouth	M. D’Ellena; R. Surprenant, Jr.

- 16)** Although the following did not occur during the current report period, it is included here due to its significance regarding parking at CRMC ROWs, the general lack of which is a significant detriment to their use by the public at large. The CRMC had a significant role in a RI Superior Court decision (C.A. No. 03-3985, filed August 4, 2004) which established that ROWs may be improved to allow for vehicular access and parking. The case arose when the Town of Barrington submitted an application to the CRMC which proposed to improve the Daunis ROW for parking. The application was the result of a cooperative effort between the CRMC, the Town of Barrington, and a salt water angler who had fished at the site as a young man, who now found his access to the ROW limited by a parking ban on the adjacent town road. The decision led directly to the improvement of the Daunis ROW to include two parking spaces. Although there have been occasional subsequent challenges to the public use of this ROW, the commitment of the Rhode Island Saltwater Angler's Association as the adopting entity at this ROW has played a significant role in keeping this ROW available for public use and enjoyment.
- 17)** The CRMC uniquely addressed public access to the shore in Narragansett Bay's urban core when it promulgated the Urban Coastal Greenway regulations (UCG) under the Metro Bay SAMP. The UCG offers development projects the option to create an easement for public access to the shore as compensation for allowing a more compact vegetated coastal buffer zone than required by Section 150 (Coastal Buffer Zones) of the Red Book. The goal of the public access option is to create the Urban Coastal Greenway – a public access pathway along the shores of Cranston, Providence, Pawtucket, and East Providence – that includes vehicular parking and arterial public access from the street side of a coastal parcel to the shore. While the UCG clearly provides a significant public benefit, the allowance of a compact buffer zone increases the useable area of an urban coastal parcel; such parcels typically cannot meet the buffer zone requirements of Section 150 (which target more rural parts of the state) and remain economically viable. To date, the following projects have contributed to the establishment of the UCG by choosing the public access option:

Project	Municipality	UCG Easement
American Locomotive	Providence	Public path along the Woonasquatucket River, minimum of eight parking spaces, and public access signage.
Division Street Hotel	Pawtucket	Public path along the Seekonk River, minimum of eight parking spaces, and public access signage.
East Point Development Project	East Providence	Public path along the Seekonk River, public parking spaces and appropriate signage, perpendicular pathways with signage leading to the public path and, signage identifying rules for public use of the path.
Johnson and Wales University	Providence/Cranston	Public access path along Narragansett Bay, public parking spaces and a recreational public access ramp.
Kettle Point	East Providence	Public access pathway along the Providence River and public parking spaces.

- 18)** The CRMC's commitment to create new shoreline public access opportunities at the former Rocky Point amusement park was rewarded when a new public park, including coastal hiking trails, was

officially opened on June 24, 2011. Leading up to this event, the CRMC had worked closely with the National Oceanic and Atmospheric Administration to procure a \$2.2 million Coastal and Estuarine Land Conservation grant, which with additional state and municipal funds was used to purchase the site. In addition to assisting in the funding process, the CRMC worked with the City to develop permits to allow the demolition of derelict structures on the property to create the new open space needed to develop the park and shoreline public access paths

- 19) The CRMC partnered with the DEM to produce *Beaches and Sand Trails of Southern Rhode Island (Regulations and Information Pamphlet)* that addresses the regulation of vehicular traffic on the beaches and sand trails along Rhode Island's southern shore. Topics include rules for driving on beaches and sand trails, camping in these areas, environmental concerns such as erosion and programs that manage beaches for piping plovers, a migratory shorebird that nests along Rhode Island's southern shore and is protected by the federal Endangered Species Act. The pamphlet is available free of charge and can be accessed through the CRMC website via the following link: http://www.crmc.ri.gov/offroadvehicles/BeachesTrails_RegsInfo.pdf
- 20) The CRMC has produced pamphlets and signs in seven languages (English, Spanish, Portuguese, Vietnamese, Hmong, Laotian, and Cambodian) which establish a code of conduct while using ROWs. The pamphlet discusses the public's constitutional privileges to the shore, but it also strongly emphasizes the importance of respecting private property rights in the vicinity of ROWs. The pamphlet identifies littering, trespassing onto private property, and blocking private driveways with illegally parked cars, as primary problems to be avoided by users of ROWs. The CRMC installs the multi-language signs at its Adopt-An-Access sites and the pamphlets are available at no charge in hard copy at the CRMC office in Wakefield.
- 21) The CRMC has published a public access guide as part of a Special Area Management Plan for Greenwich Bay. The public access guide lists CRMC designated ROWs that lead to Greenwich Bay. The inclusion of technical and physical descriptions, locus maps, aerial photographs, and GIS maps which pinpoint the locations of and directions to the ROWs, makes this the most comprehensive and "user-friendly" public access guide the CRMC has produced to date. The guide also identifies other public access sites along Greenwich Bay, including municipal rights-of-ways to the shore and publicly-owned open spaces. The guide is available at the CRMC office in Wakefield at no charge and via the CRMC website at: http://www.crmc.ri.gov/publicaccess/gb_row_guide.pdf
- 22) The CRMC continues to distribute its *Coastal Briefing: Public Rights-of-Ways CRMC's Designation Process* fact sheet which describes the process for designating ROWs, and its *Citizen's Guide to Assisting in the Right-of-Way Designation Process* which was designed for municipal officials and the general public. The *Citizen's Guide* provides step-by-step information on how to conduct background research to identify potential ROWs. Both the *Fact Sheet* and *Citizen's Guide* are available via the CRMC website at: <http://www.crmc.state.ri.us/publicaccess.html>
- 23) The CRMC continues to complete and update this annual rights-of-way report which is available to the public at no charge at the CRMC office in Wakefield. As the CRMC designates new public rights-of-way, the report is updated to document the location of these right-of-ways. The report serves as an inventory and planning tool for coastal communities as well as serving a public interest. This report is also available via the CRMC website at: <http://www.crmc.ri.gov/publicaccess.html>

- 24) The CRMC continues its cooperative efforts with the municipalities to promote the continual process of discovery and designation of new ROWs. CRMC staff continues to update a contact list of municipal officials in Rhode Island's coastal communities, and to initiate periodic contact with these individuals to solicit information on potential new ROWs in each municipality, and to offer assistance regarding ROW issues.
- 25) To continue efforts of coordination between the RIDEM and the CRMC, the CRMC has remained an advisory member of the Recreation Resources Review Committee (RRRC). This provides a strong and coordinated mechanism to ensure that coastal right-of-ways are included in site development and funding requests and that projects proposed for funding under the auspices of the RRRC are consistent with the Council's goals and policies for access development. On request, the CRMC continues to assist the RRRC in its review of funding applications for coastal access improvement projects.
- 26) The CRMC continues to foster outreach and education opportunities to inform the public on the various methods by which the CRMC provides and improves public access to the shore in the state. To this end, the CRMC wrote an article for publication in the Narragansett Bay Journal on all facets of its Shoreline Public Access Program. (Winter Edition, 2012-13, Issue #25). This article can be accessed via the following link: <http://www.nbep.org/journals/winter-2012/Public-Access.pdf>

FUNDING

Funding remains a chronic problem for the rights-of-way program. Original federal funding for the task of discovering and designating ROWs was established at \$30,000 per fiscal year. However, in response to subsequent budget problems the appropriations specifically earmarked for this task were level funded at \$5,000 per fiscal year, until FY13 when the federal share was eliminated.

The reduced monies must still cover legal, stenographer, travel, advertising, and staff costs. The CRMC has continued to discover and designate new ROWs, though at a lower annual rate than when the ROW Program originated. This is primarily due to the current funding constraints, which, as noted above, includes comprehensive legal research, and time-consuming public hearings (the purpose of which is to exhaust evidence), resulting in site designations that span reporting periods. The CRMC has had to reduce funding to the ROW program due to overall decreases in program funding.

Therefore, it is likely that due to further decreases in appropriations, and the resulting decreases in federal monies (a 1:1 match is required with federal funding), it may be necessary for the CRMC to come close to zero-funding its rights-of-way program next fiscal year. As state appropriations have become non-existent for this task, the CRMC is faced with using federal funding to cover operational costs, thereby losing such programs as the ROW designation process. Further, if one were to take into consideration the monetary cost of trying to purchase those CRMC designated public access areas at current market value, it would easily amount in the millions of dollars. Thus the state has reaped a high rate of return for monies expended on this program. By demonstrating how successful the CRMC's efforts vis-à-vis rights-of-way designations and its impact to the state's quality of life, the Council will attempt to foster partnerships that will allow ROW designations to go forward in spite of funding constraints

FUTURE ACTIONS

One of the prime objectives of the right-of-ways subcommittee is to continue to seek opportunities to foster partnerships that further the ROW discovery and designation.

Additional state funding will be sought, which will result in additional sites being reviewed, and therefore possibly being designated as public ROWs to the shore.

The subcommittee's task of designating public ROWs to the shore continues to be one of the CRMC's highest action items to ensure the public right-of-access to the coastal waters of Rhode Island.

Respectfully submitted by,

Jeffrey M. Willis, Deputy Director
Coastal Resources Management Council

on behalf of the Rights-of-Way Subcommittee:

Jennifer R. Cervenka, Chair
Patricia Reynolds, Vice Chair
Janet Coit, DEM Director

TOWN-BY-TOWN ANALYSIS
OF THE COUNCIL'S ACTIONS REGARDING
SITE DESIGNATIONS AND PUBLIC RIGHTS-OF-WAY TO THE SHORE

The following represents a town-by-town analysis of the CRMC's actions regarding the review of various sites and their potential designations as public rights-of-way to the shore. This is the official listing of the Council's actions regarding its designation process for public rights-of-way.

Where applicable, the following terms mean:

Insufficient Evidence:	The CRMC reviewed these sites and based on the evidence submitted into the record at the time of the hearing; found that insufficient evidence existed to designate these sites as public rights-of-way to the shore. However, further review may occur for these sites given new evidence.
Not Resolved:	The CRMC previously investigated these sites and made no determination as to whether or not these sites are public rights-of-way to the shore. They are not currently being investigated by the CRMC, however further review may occur for these sites given additional evidence.
Under Review:	Sites which are currently being considered by the subcommittee.
On Appeal:	Decisions of the CRMC which are being challenged through the courts.
