**RE: Water Quality Certificate (WQC) File No. 24-008: TSL LLC Marine Perimeter Limit (MPL),
Assessor's Plat 9, Lot 50, 267 Thames Street, Bristol, RI**

Dear Mr. Goldstein:

The Rhode Island Department of Environmental Management Office of Water Resources (RIDEM OWR) has reviewed the above-referenced project for compliance with the State Water Quality Regulations (§250-RICR-150-05-1). The project involves establishing a Marina Perimeter Limit (MPL) for an existing fixed dock with associated floating docks and berthing area for a floating 'pool boat', as further described in your application and detailed on site plans consisting of two (2) sheets as prepared by Ron Blanchard, P.E. of site Engineering Inc., received by RIDEM OWR on January 19, 2024, with all necessary application materials received by RIDEM OWR on November 26, 2024. The State water associated with this project is Bristol Harbor, Class SB.

It has been determined that the above-referenced application is compliant with the requirements of the RI State Water Quality Regulations, provided that the applicant complies with the above-referenced project application materials and the following conditions:

- 1) The new MPL to be established is limited to the state plane coordinate points, starting in the northwest and moving counterclockwise to the northeast, as described below:

Point #	Easting (Feet)	Northing (Feet)
1	214,015.54	388,250.48
2	213,972.46	388,260.63
3	213,992.45	388,349.56
4	214,000.27	388,347.21
5	214,014.34	388,404.39
6	214,049.83	388,396.02

- 2) This WQC does not relieve your obligation to obtain and adhere to any other applicable local, state and federal permits prior to commencing project. Should any stipulation/condition identified within any other applicable permit be in conflict with the conditions set forth in this WQC, the applicant shall notify RIDEM OWR immediately.

In addition to any necessary enforcement actions stemming from the violation of any of the terms or conditions of this Water Quality Certificate, issuance of this certificate does not bar the Rhode Island Department of Environmental Management, nor any of its various Divisions, from initiating any investigation and/or enforcement actions that it may deem necessary for violations of this certificate or of any and all applicable statutes, regulations and/or permits, including but not limited to violations of the terms or conditions of any previous Water Quality Certificate(s) issued to you as an applicant for this site.

This is the State's Water Quality Certification, which shall have the full force and effect of a permit issued by the Director. Violation of the Terms and Conditions of this Certification may result in violation of the State's Water Quality Regulations and appropriate enforcement action.

Should you have any questions or require additional information, you may contact me or Rebecca Russell at rebecca.russell@dem.ri.gov or 401-537-4157.

Sincerely,

Neal Personeus
