Mike – I am very happy to have received this email. Thank you for offering to rejoin the FAB. And I'm sure this must've have been a difficult decision, but for all the reasons you stated in your email, it is exactly why your participation is welcome. You've always been a strong advocate for the industry and your insights at this time will help us all better understand not only the most direct issues associated with any OSW project, but also how those issues find their way into the industries and groups connected to a project. We will place your name on the CRMC's July 22, 2025 Agenda for ratification onto the FAB.

Kevin and I will follow-up shortly afterwards to bring you up-to-speed regarding staff reviews and FAB involvement of current OSW projects. If you have any questions in the meantime, please do not hesitate to contact me or Kevin Sloan.

Glad to have you back.

Thanks,

Jeff

Hello Mr Willis,

I am of the understanding that there is a lack of participation on the fisheries advisory board to the crmc of commercial fisheries representation. After long consideration and a few pointed discussions with my peers, I have decided that I am willing to toss my hat in the ring of fire and lend whatever first hand past and present knowledge regarding local fisheries, resources, and habitats I can to the process and participate as a member of the commercial fishing community and represent such interests to the best of my abilities. I see this representation as necessary for many reasons, none of which please me, but is nonetheless needed. Please accept this as my application.

Cordially,

Michael Marchetti
